ChartWorld CIO+

Environmental

CIO+ Environmental is designed to help ships to comply with MARPOL and other environmental regulations.

The CIO+ Environmental is delivered as a user chart, indicating intersections along your planned route with special areas, defined in the IMO MARPOL Convention as well as in other national and international environmental regulations.

CIO+

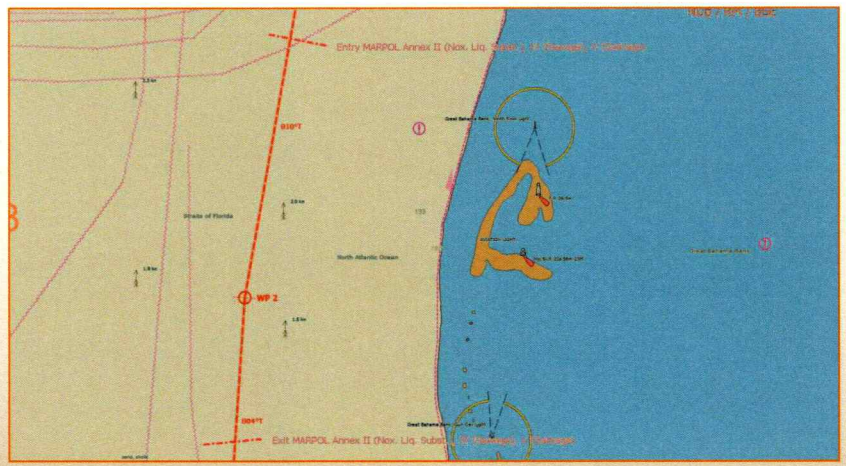
Features:

- Special areas, taken into consideration by the CIO+ Environmental:

  MARPOL Annex I – Oil
  MARPOL Annex II Noxious Liquid Substances
  MARPOL Annex IV. Sewage
  MARPOL Annex V. Garbage
  MARPOL Annex VI, Emission Control Areas (ECAs)
  Special areas defined in China ECA regulations
  Port ECAs defined by EU Sulphur Directive 2005/33/EC

- Limits of MARPOL and ECA areas are defined from national baselines.
- Indication in the ECDIS of the planned route entry or exit the areas with environmental restrictions.
- ECDIS alarms in route planning and route monitoring modes when approaching special areas.
- Prominent display in ECDIS of area boundaries intersecting the route.



Indication of areas with environmental restrictions

ChartWorld eNtM+

Ensure you are always up to date

Ensuring the inclusion of Notices to Mariners (NtMs), on both charts and ECDIS, is one of the hidden challenges of safe navigation. Even if you are ECDIS compliant, you may still need an NtM solution for any paper charts on board and to address the 'No Overlay' gaps in the AIO on your ECDIS.

ChartWorld's eNtM automatically updates your ECDIS with the latest notices, reducing the risk of crew error in any data transfer.

eNtM

OnBoard
Navigate with ChartWorld

Subscribe to eNtM+ and correct your charts with a ChartWorld OnBoard service.

- NtMs available weekly for BA, AUS, NZ, JAP, KOR, NOR, IND, DMK, CHN, MEX, USA paper charts.
- No installation costs.
- Service provided through our free ChartBrowser software.
- Active paper chart inventory can be easily managed for all corrections by the crew without having to communicate with the shore.

ChartWorld ENS

Emergency Navigation System

ChartWorld's ENS is a fully independent tablet or notebook, GPS enabled and AIS compatible. In case of an emergency ChartWorld ENS will navigate your vessel safely to the next pilot station or port of refuge.

With DNV GL certified ECDIS software and all official ENCs from your ECDIS installed on the ENS, an emergency back-up system does not mean more paper.

ENS
